

4 SCREEN

Clip on the foot at the bottom...

And attach the pole to the profile at the top... and your finished!

With 4 Screen you can put your message across over and over again in a simple, rapid, cost-effective way. It is the price in combination with the low weight and attractive design that make 4 Screen suitable for large campaigns and events where both transport cost and purchase price are important.

It can also be put in place quickly as it can be assembled in less than a minute without any preparations or previous experience. 4 Screen is lightweight, yet stands firmly on the floor thanks to the balance in the lower half of the supporting rod, with a low centre of gravity. Both the design and function have been carefully considered down to the smallest detail. The panel profiles are discreetly located and the gently shaped support foot is simply clipped securely in place.

INCLUDED

Foot, collapsible supporting rod, graphic and bag
