

SIDEWINDER

The Sidewinder's unique design allows the banner graphic to cover the front of the base, focusing attention on your messages and not the base!

Sidewinder is lightweight, available as single or double sided, and comes in 5 different widths. The banner pole is attached, eliminating any parts to lose. And the graphics retract into the casing for storage and protection during shipment. An innovative header option and shipping cases are optional accessories.

Target your audience using the Sidewinder Header option which is simple and easy to attach. Header can be profile or box cut and is mounted to 1/8" Sintra.
