

TEARDROP BANNER

Standard Teardrop Banner package includes a spike base (shown above). Other options include a ground screw for soft grassy areas, or a metal floor base for hard surfaces (shown below).

Teardrop Banners are ideal advertising means because of their attractive and eye-catching shape, which makes them get noticed among other elements in their surroundings. Teardrop Flag consists of fiberglass flagpoles, with superior strength/flexibility properties, and optional bases that provide the perfect solution in all environments.

Key Features:

- Fiberglass flagpoles offer superior strength and flexibility
- Standard package includes a spike base (to display in hard ground), but screw bases (for displaying in soft earth/grassy areas) or metal floor bases (to rest on top of any flat indoor or outdoor surface) are also available.
- Banners rotate on their bases so there is no chance of blowing over.
- Padded nylon carrying bag is included with shoulder strap.

INCLUDED

Fiberglass poles, spike base, graphic and carrying bag with shoulder strap
